

Dividend Payment Policy

The Company's dividend payment is made to the shareholder with not less than 50 percent of the profit, after deducting the income tax payment. The dividend payment is based on Company's operational performance, Company's financial position, Company's liquidity, business expansion, and other factors that relate to the administration of the Company. However, the Company may pay the dividend less than the percentage mentioned above, if the profit is needed to be used for expanding the business.
